About Us

HM Healthcare Partners, is a fully customizable research organization that provides, designs and conducts research studies and clinical trials. Founded by two physician-scientists who share a passion for research and care for individual patients. Our 25 years of combined research experience have allowed us to master the clinical research skills needed to pioneer fundamental mechanisms and apply them to our approaches. We've led many entities achieve their research goals and pride ourselves in being an industry leader committed to innovation and streamlining the complexities of clinical research.

Capabilities

We pride ourselves on being a full-service multi-specialty clinical research firm to accelerate your organization's growth. We are a full-service and customizable contract research organization. Our services are available 'al-a-carte' based on your research projects' needs. We are experts in:

- research administration: pre- and post-award services
- grant proposal development and medical writing
- budget development, negotiation and reconciliation
- study design, data collection, maintenance, and record retention
- protocol development and execution
- statistical analysis, biostatistics, sampling
- regulatory compliance and submission
- human subject recruitment
- manuscript development and journal publications
- business development and external relationships

Differentiators

We set ourselves apart by realizing research through our commitment to innovation and streamlining the complexities of clinical research. Our differentiators are:

- owned and operated by independent physician-scientists (MD/PhD)
- flexibility and expertise in multiple therapeutic areas
- clinical and translational research
- passionate and innovative approach
- commitment to excellence in clinical research
